# MANUAL FOR DIFFERENTIATED REFUSE

**INSTRUCTIONS FOR CORRECTLY  
SEPARATING REFUSE**

**THE NEW REFUSE COLLECTION IN PORDENONE** is an innovative project to handle urban trash. It has, as its aim, the reduction of organically-derived gas emission, optimal environmental protection, the improvement of differentiated refuse collection, the increase of recycling and a lower cost of trash collection.

In this brochure, you will find all information for the best possible use of the new service, based upon **4 MAIN NOVELTIES**:

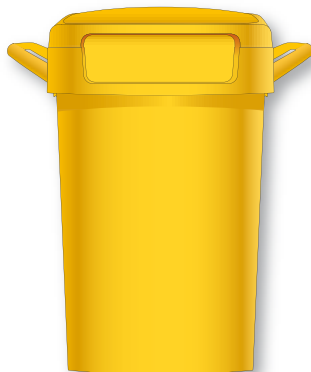

- the collection of **DRY RESIDUAL REFUSE (NOT RECYCLABLE) WITH THE DOOR TO DOOR METHOD**, that is, the collection of this type of trash in front of private houses, according to a pre-established calendar;
- **AN INCREASE IN THE NUMBER OF STREET TRASH BINS FOR DIFFERENTIATED REFUSE** (paper, plastic and tin cans, glass, organic remains such as food and vegetable waste, etc);
- street bins **EXCLUSIVELY FOR GLASS**;
- combined collection of **PLASTIC AND TIN CANS**.

## THE DOOR TO DOOR SYSTEM

The door to door collection of dry refuse will guarantee greater environmental hygiene and convenience for inhabitants. The trash will be removed directly by the operators: it will suffice to place the suitable **YELLOW CONTAINER**, only when full, outside your own domicile, on the public street and in a visible place, after 8 p.m. preceding the day scheduled for the collection, by 6 a.m. of the morning of said collection day.

It is possible that trash cans put out after 6 a.m. will not be emptied.

For **APARTMENT BUILDINGS WITH MORE THAN 15 UNITS**, the dry refuse collection will be effected by means of locked bins, for the exclusive use of the persons living in the building; each family unit will have its own key.

Productive and commercial areas will have containers proportionate to the production of dry residual waste.

# DRY RESIDUAL

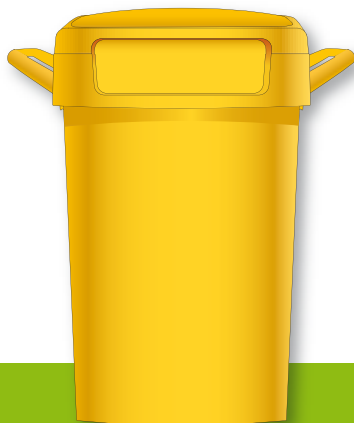

## REFUSE COLLECTION (NOT RECYCLABLE)

This category **INCLUDES**:

- audio and video cassettes
- vacuum cleaner bags
- CD, DVD and floppy disks
- small household appliances or kitchen utensils
- small polystyrol containers (for meat, fruit, etc.)
